

ACTIONS & AMBITIONS PLANNER: Week 6

I have got this!

- Make your garden more wildlife friendly – learn how to attract hedgehogs
- Plan things you can do for wildlife at home – plant some bee and butterfly attracting plants in your garden – even if they are for next year!
- Pray for wisdom about ways you can reflect God's image in your own life in relation to other people in the wider world
- Read the ***Plant-based diet; A Christian option*** by Mia Smith to help you look at the theological background to the ethical questions around plant based diets. Maybe start meat free Mondays...

I thought I had got this but I need a little more prayer and reflection

- Pray about how you can amend your dietary habits to look at eating less meat and more organic and sustainably sourced produce – maybe just start with free range eggs
- Research ways of reducing use of pesticides in the garden
- Act on the climate crisis through prayer and action to tackle injustice related to the climate emergency (<https://www.tearfund.org/campaigns/climate-campaign>)

I will get to this!

- Changing diet for me is a longer term commitment however I will continue to pray for guidance and discernment in choices
- If this topic area that has really ignited your interest then perhaps familiarise yourself with the [Final Report - The Economics of Biodiversity: The Dasgupta Review - GOV.UK \(www.gov.uk\)](#) - This independent review calls for changes in how we think, act and measure economic success to protect and enhance our prosperity and the natural world. Grounded in a deep understanding of ecosystem processes and how they are affected by economic activity, the new framework presented by the Review sets out how we should account for Nature in economics and decision-making. There is an abridged version / headline message version.
